Wine Trade Review

Sauvignon Blanc

Sauvignon Blanc is continuing its incredibly strong run, and judging by the selection of 71 samples that came in for the tasting, there's very good reason for the trend. The tasting panel was surprised by the quality of wines across the board at this session, all agreeing they were looking for those with texture and weight.

The range was blind-tasted by the panel, with their individual ratings compiled and then averaged to find the top-raters in each price bracket.
