

Thirsty Lizard

Sometimes as our vineyard workers go about their work, they come across "Larry", a thorny devil lizard, that has made our vineyard his home. A self confident sort of individual, Larry's always keeping his eye on what's going on. Occasionally when it gets a little on the warm side, Larry sidles into the barrel hall looking for something to drink, that's when you hear the call "Watch Out, Thirsty Lizard".

SEMILLON SAUVIGNON BLANC 2007

The 2007 growing season throughout Australia delivered typical crop levels and full flavoured fruit. The Semillon and Sauvignon Blanc were picked at a range of fruit maturities to give us balance in the final wine.

Our aim with Semillon Sauvignon Blanc is to produce a fresh fruit driven style that is easy to drink. Characters of green apples, citrus and tropical fruit dance on the palate. The Semillon gives the wine its full flavour while the Sauvignon Blanc adds fantastic lift to the aroma.

Try with grilled meats and cheese.
